Dream House Cloud

Intervención en espacio virtual con archivo sonoro. 23 Julio a 23 Septiembre 2021
<https://edge.mixlr.com/channel/wzmov>

Dream House es una instalación concebida en los años 60 por el compositor minimalista **La Monte Young** y la artista multimedia **Marian Zazeela**. La obra propone la incorporación de luz y sonido en el interior de un espacio cerrado (habitación, loft, buhardilla, sótano...), de forma ininterrumpida 24h al día sin un final establecido. De este modo, la instalación presenta drones de onda sinusoidal continua de Young e iluminación y diseño magenta de Zazeela. Desde su concepción en la década de los 60, ha sido instalada en varios lugares. Una versión activa de esta instalación se encuentra ubicada desde 1993 sobre el loft de Church Street en Tribeca-Nueva York.

Dream House Cloud trata de activar múltiples ideas, especulaciones o extensiones en torno a la propuesta ideada por Young / Zazeela y el momento actual de Pandemia/PostPandemia Global.

ARTCDES - Acción #02
#simultaneidad #espacio #tiempo #transferencia #altavoz

Dream House Cloud

Reproducción en espacio virtual de forma ininterrumpida 24h/día, de las 14.591 canciones, 143,89GB que en la actualidad componen mi archivo sonoro personal. Reproducción activa desde el 23 Julio al 23 Septiembre de 2021.

Con esta acción, traté de acercarme a la idea de lo presencial, de lo no presencial, de situarnos en otro lugar, de trazar un rastro, de pensar en el otro, de ocupar espacio con sonido, de amplificar la escucha, de extender nuestros sentidos, de transferir conocimiento, de amplificar, de expandir...

Dream House Cloud trató de propiciar un gesto, un modo de cultivar valores de solidaridad y colectividad, de reconocer nuestra relación con las máquinas, nuestra experiencia perceptiva experimentada en pandemia de forma emocional entre el espacio físico y el virtual, una agenciamiento del espacio-tiempo en la nube.

Dream House Cloud trató de poner a prueba y dialogar con diversos ecosistemas digitales, plataformas, modos de comunicación, transferencias o acumulación de conocimiento, contenido que transforma nuestros espacios de subjetividad.

Dream House Cloud trató de reconocer la importancia de activar eventos que posteriormente puedan crear espacios de relaciones o transacciones sociales.

- Capturas de pantalla: Código, Settings de sistema, Estadísticas y Archivo <https://mixlr.com/juancantizzani> – 23 Julio a 23 Sept. 2021

The image displays three side-by-side screenshots of the Mixlr Pro software interface, each showing a different broadcast session. The interface includes a top bar with a 'Stop' button, a timer, and a 'Continuous 24/7 broadcasting' section. Below this is a 'Sources' section with a 'MIC' input and a 'ANY INPUT' section. The main area shows a list of tracks being played, with the current track highlighted in red. The leftmost session shows a track by MASAMI ANITA & RUSSELL HASWELL. The middle session shows a track by PHILL NIBLOCK. The rightmost session shows a track by TOSHIYA TSUNODA. Each session also has a 'SOUND' section at the bottom.
